

Kiln Furniture

Rojan, as agent for Beijing Trend Industrial Ceramics, China, offer the latest in high quality cordierite-mullite kiln furniture for the Roofing Tile Industry.

Beijing Trend, Asia's No. 1 cordierite-mullite kiln furniture supplier, has manufactured high quality cordierite-mullite kiln furniture for over 10 years. It has 3 workshops which occupy an area of 42,000m² and can produce up to 9,000 MT p.a. Its philosophy is to be the market leader of high quality kiln furniture in the world and to achieve this, it constantly conducts research and development to improve its product quality, improve its cost effectiveness and provide more convenient and faster delivery services for its customers.

The Rojan-Beijing Trend kiln furniture works very well in operating temperatures below 1,300°C and has been developed with the following properties:

- High compression strength
- High impact resistance
- Good thermal shock resistance
- Light weight thus requiring less energy and time to fire up to the required temperature
- Long service life

The product range comprises light weight kiln car sub and superstructures, built with Perforated Batts, Viaduct Blocks, Support Blocks, Extruded Batts and Draught Hole Blocks, as well as H-Cassettes and U-Cassettes, all custom made to your requirements.

We are also able to supply Siliconised and Recrystallised Silicon Carbide kiln furniture to suit your requirements.
