

Labware

Rojan range of laboratory ware products includes:

- Trays
- Milling Jars
- Lids & Dishes
- Combustion Boats
- Mortars & Pestles
- Porous Micro-filters
- DTA & TGA Crucibles
- Conical Crucibles
- Cylindrical Crucibles
- Furnace Tube Liners

We are also able to custom design and manufacture items to sizes to suit your specific requirements.

Our products are supplied in the as-fired condition with standard tolerances between $\pm 0.5\text{mm}$ to $\pm 2\text{mm}$ (depending on the dimension) or $\pm 2\%$, whichever is greater. Smoother surfaces and tighter tolerances can be achieved if required.

All the standard laboratory ware products are available in

- Non-Porous, 99.8% Alumina
- Silicon Carbide supporting components such as carousels. Refer to our Assay Crucibles & Accessories brochure
- Cordierite-mullite Kiln Furniture. Refer to our Kiln Furniture brochure
- Fused Silica

We also offer different ceramic materials to suit particular applications.

We are able to advise on material selection.
